Subject: Valcom/Security

Dear Ms. Maxwell,

I would like to get Valcom in to complete the Security System/Video System.
As of 9/29/03 Darren has not yet received the equipment from Professional Security, but Valcom can complete all other phases of the project, except the final phase of connecting all staff houses to the main system. Valcom will be on site 9/30/03 to complete the wireless system at the MH and could start this project then.
Please indicate if I can go forward with this.

Warmest regards
Karen
