Subject: Flight Dept. update:

*Ghislaine,*

*Teala's BAG:*

*Yesterday while clearing customs, one of Jet Aviation Line Service guys injured his elbow while lifting Teala's Large Black suitcase back into the gulfstream. Jimmy (pulled), sprained his ligaments in his elbow accourding to xrays today. We have seen this large bag on many flights and it has only gained more weight...I would guess it is in excess of 145 pounds now. Do you think something should be said? Could she make 3 bags maybe to off set the weight?*

*Morrison Pilot Training:*

*He has re-thought his Pilot training option and is going to try to proceed. However his idea of training schedule is a little different than our Helicopter training...*

*He is going to wait till Oct. while the Boeing is in for Maintenace to start flying, instead of utilizing these days to train.*

*He is training at Pompano Airport (same as our Helicopter Training)*

*He would like to stay in a Hotel instead of going home.*

*And probably rent a car instead of using his own.*

*Yours thoughts,*

*I told him No hotel, it is only a 30 min. drive each day, and also that Dave, myself and Ghislaine did not require a hotel.*

*And bill the Gas and NO rental car.*

*Demo Flight:*

*I am trying to arrange a Demo of a Gulfstream 550 (G5+) for JE on Friday from TEB-PBI.*

*Zorro Ranch Theatre:*

*Has been approved and is in developement.*

*Your thoughts,*

*Larry V*
