Dear G - hope all well and things have settled down - I don't want to bug you about Flora but - she is very keen to come and work for you but her mother is very worried that if it falls through with you she will not have anything lined up to do instead - she is therefore interviewing for teaching jobs etc but would obviously prefer to come to you. I need to give her some indication of whether it is a total no go or to hang on in there - let me know. I am going skiing on Saturday 26th until 10th April - are you planning any trips over here during that time? Love K
