She died? Finally. That is horrible to say but I get it. She is in a good place.  
Oh good contract ready tomorrow. I will be in the office - will you have to messengered there to me? Or you can fax it there.  
Are you in town this week? I would love to sit down and talk about the project and what you want to be doing - what decisions you want to make etc. How much do you want Richard deciding etc. Okay? Don't want to get too far down the pike without this.
