Subject: Your arrival

Helen said that you might be arriving this week - Wednesday or Thursday. Will go to the house on Tuesday 8th to set it all up for you - can you let me know if there are any changes as I have all three children on holiday and need to dispose of them!! We also need to book the computer guy to come and see you to connect your laptop to the airport base (this won't take very long - he sorted out your computer last week but needs to do a few things with the actual laptop). Hope all well
Love Kxxx Did James go down well?
