Saw Madonna on the Jew Larry King show, talking about "Qaballah." Hollywitz types, especially gentiles, who take "Qaballah" lessons from some Rabbi huckster are a funny joke. Larry didnt look amused to be talking Jew religious issues with a cattle. Not that he gives a damn about any spirituality including kike spirituality. I couldnt tell if Larry was bored, mad, or just constipated. The rabbi's probably charging a ton of money for these "lessons" to these credulous celebrities wanting to hop on the Jew-identity bandwagon without actually converting.<br><br>
