Subject: this is new...have you seen it?

Dear Friend,

Newly Crowned "Internet Guru" gives 67 year old peanut farmer from Macon, Georgia "Step-By-Step" videos for making money on the internet. How does someone with little or no computer or internet experience go from farming to making thousands of dollars on the internet in one day?

Simple answer... Instructional Videos.

Wouldn't it be easier to build a house with step by step easy to follow "How to" videos rather than a 1,000 page black and white manual with no pictures?

This is the problem with most e-books they are just that manuals.

Not this one.

You too can get the Step-By-Step videos that show you, instead of telling you, how to begin making money in the same amount of time it takes to wash your car!
