Thank you for your e mail, and thank you for looking after me so well whilst I was with you. What a trip. I am just in the process of developing the films that I look and I will certainly send you any which are good. Did you take any of the news papers with you? I would love to have some cuttings. The ones that I took became soggy after I spilled an entire evian in my bag!
Do keep in touch. I hardly ever come to Washington as it is not my stomping ground. Let me know if you come to NY
