Sorry to hear that the Belzburg stuff is bad and even worse that it may be damaging. You know that one of my pet fears is that in London I am press toxic so I hope that I never add to your woes in that dept. If I hear anything I will of course let you know. I could not help myself - there was one juicy little tit bit I did let out - The one about what a supper stud you are and how I have a crush on you and how you are hung like a horse and- well you get the picture. Hope you don't mind
