Carlos - Jeffrey was disappointed to receive just one sheet of paper with some details on my room which he sd he could have looked at in a book. He was expecting something that would show what details you can do and come up with in a room such as not looking straight at a toilet when you enter the bathroom - what the walls would look like and so on. He want to know if you are serious about wanting to do this very important project? These detailed drawings were supposed to be with him 14th - and he waited for them -  
The meeting with Pinto should be clarified this week on Mon and I will e mail you then - meanwhile please respond to this e mail
