What are you talking about - everyone knows how to locate the Gspot - there are direction on map quest - as for Nessy - she is a regular now and poses for tourists, big foot is a little less well know, but is a very familiar presence in the Himalayan mountains where he convenes with the monks on a daily basis.&nbsp;  
As for the on off switch - I'll be happy to guide you to it<br>

No, there is not automatic on off switch - there is a place though for an <br>installation - you should be aware though that that only applies to new <br>models not current or old models - it was an upgrade added to the female <br>system, but only recently - something at least for you to look forward to<br>g<br>

&gt;Talk to you later, and see you tomorrow.<br>

&gt;If "shut up shut up" is the definitive relationship song - you will need to<br>

&gt;know how to install the mute button on new and future girlfriends - there<br>&gt;is a little port on most women that accepts that card - I'll show it to you<br>

&gt;on Wed - not too many men know about it</blockquote></html>
