I'll just take your promise to behave at face value and leave it at that. I shall avoid any mention of you for the time being. Kevin told me I do not have to give a name yet - I shall avoid your name for as long as security does not ask for it, and by that avoid exciting Kevin's interest. I never do deals with my brother - not even over something as innocuous as teasing me - it would merely make matters worse. Therefore you may not have his no.

Deal??

+ the thought of you colluding with my brother on anything sends a
shiver down my spine. It is simply not permitted on any level - and
whilst we are on the subject, nor any other member of my family
either. I won't even introduce you to Kevin unless you promise to
almost ignore him. Having sd that he LOVES me - I am his fav sister
so has nothing nasty to say. Kevin just gets the biggest, most
massive kick out of teasing me, making me squirm in general-
unfortunately he does it very well. I only thought about us going
together as I thought it might be great fun for you/us - new place,
new people, odd event. I just wish it was not my bro's invite! I can
of course always invite someone else if you do not PROMISE to
behave?? I have already started investigating all the fun things to
do there - there is a lot to do.

Why hell - surely contrition last longer than 24 hours?
