Jerome also told Mrs E that he would be here this Sat. He has to know that it is not good enough not to turn up and not to have the curtesy of a call. We pay him an amnt ec week and even if he is not at El Brillo because of other work commitments I 3expect him to come after his other commitments which I know end at 4 ec day. You should speak to hin directly and find out what he is doing and direct him - obviously John can't

Ms. Maxwell:

We recently received clairification from Mr. E that Jerome is to go to his mother's weekly and I understand that Mrs. Epstein wanted him every Saturday morning. In fact, I spoke with John and Jerome my last visit and Jerome stated he was going to Mrs. Epstein's on Saturdays and understood he was to go each Saturday. I'll check later in the week why he didn't go this Saturday.

I also understand from John that Jerome details the cars and power washes the pool deck, pool furniture and driveways along with other miscellaneous jobs at John's discretion. However it would be wise for me to ask Jerome what he does...

This can wait till Mon. Actually it is John's responsibility to control the pool heater and no one elses. Additionally I wonder do you know exactly what Jerome is supposed to do and when. For instance were you aware that he is supposed to go to JE mother's hse every Sat to do her Garden. He did not go this Sat. Let me know what you think he is supposed to do
