Hey Richard - when I ring your no. it says that your phone is no longer in service! I am coming back to NY tonight and will be there all week. JE mother is out of intensive care and will be going into a rehab center so all is quite finally on that front. I have now spoken to Doug extensively and can see a way to making the 2 mill that we wanted. We should talk. Are you free for dinner on Thurs? Us talking and the dinner are not related - talking is business, Thursday dinner is fun - a dinner party

Let me know

G

Richard sorry for the tardy response - I am in PB but Jeffrey's mother (the 13 year man's) mother went into emergency at hospital and is in intensive care here in PB. I would love to see the treasure - or at least meet w/you and the guy to hear the stories - call me when you land so we can see if we can organise something
