**Subject:** Paris Wx update

Jeffrey,  
appears Paris=20weather is lower than forecast,.  
Current 1500 =ocal time Le Bourget Wx is calm wind, visibility 6 miles=.1000 overcast Midnight tonight ceiling 500  
broken, =ith visibility 2 miles or less is forecast thru out the e=ening,.

Charles De Galle is fore=asting for this evening and morning 300 broken, and 1 =ile visibility, temperature 58 degrees  
and dew point 54 degree=s,. as temperature drops close or equal to dew point, Fo= is guaranteed.

Su=day Noon arrival or later is best for ceiling,.

=div>our approach minimums:

ILS runway 7 approac= minimum is 320 feet due to 50 foot obstruction at run=ay approach,. wind is favoring runway 7  
for landing.

ILS runway 25 is 200 feet, lower minimums sinc= no obstructions at runway approach area.
