Jeffrey,

I have attached 2 photos. The first is the one you a=proved this morning and the second is how close I can get to that with eve=ything properly scaled out.

The 2 bulbs side by side need the space as shown to =it properly and I need to make an aluminum enclosure that size for t=em.

The outboard horizontal piece also needs to be wider=do to the speakers that existed (separate page and phone) and the ballasts=for the lightbulbs.

Have a great night.

JAY MASSAR | OPERATIONS MGR<=:p>
