Thanks for the time on the call. Sorry I was not my normal upbeat self - busy day with lots of distractions!

Please do not mention anything about the spectrum deal, I thought you should know about it, but it is super not public. The price has a lot of caveats of stock plus and upfront cash, but it is a totally awesome thing in every way. While it's not as good as our Ku rights (Ka is worse spectrum, and it is secondary rights, not primary), it gives us all the remaining Ka rights behind O3b.

Could you send me an Kaberuka's email? It would be fun to talk with him again.

Yes, the IFC funded O3b Networks.

Great to talk!
Greg
