Jeffrey,
appears Paris weather is lower than forecast,.
Current 1500 local time Le Bourget Wx is calm wind, visibility 6 miles,.1000 overcast
Midnight tonight ceiling 500 broken, with visibility 2 miles or less is forecast thru out the evening,.

Charles De Galle is forecasting for this evening and morning 300 broken, and 1 mile visibility,
temperature 58 degrees and dew point 54 degrees,. as temperature drops close or equal to dew point, Fog is guaranteed.

Sunday Noon arrival or later is best for ceiling,.
our approach minimums:
ILS runway 7 approach minimum is 320 feet due to 50 foot obstruction at runway approach,. wind is favoring runway 7 for landing.
ILS runway 25 is 200 feet, lower minimums since no obstructions at runway approach area.
