And as I said to you earlier
Please tell this accountant to respond today a= he has had the request from last week - or we are replacing him

I asked you david -earlier today
A complete understanding of the AP for constr=ction and hotel Total balances
Then I asked you for a understanding
How when we need 4 mm to complete constructio= and your asking to raise 2 more mm

When you pulled in the first 2 mm and you say=you in addition to thisyou have put on your Amex 900k which added up to 3 m=

I'm asking how can we have all these delinquent AP items at both hotel ops and construction when we have funds of an addi=ional 3 mm

You said --to me today --you would write this=all out - today and forward
I do not want the items we already have seen a= suggested below
I need the answers to my direct questions we r=viewed today
Simple accurate totals I do not need tm= binders
What is the issue vs what you said you would h=ve asap today- sent to me ?
