**Subject:** Call for submissions--Wolfram Technology Conference

Connected devices. Data science. Deep learning. If it's groundbreaking tech, it'll be at the 2016 Wolfram Technology Conference, held just steps away from Wolfram headquarters on October 18-21, 2016.

Secure your spot to share your work with the best and brightest by entering submissions for conference talks, hands-on workshops, and panel discussions. The submission deadline for this year's conference talks is Friday, July 15.

Featured presentations will showcase the Wolfram Language and the thriving ecosystem growing around it, including Wolfram Development Platform, Mathematica, Wolfram|Alpha, and Wolfram SystemModeler.

Are you doing something groundbreaking, clever, or just plain useful with Wolfram technologies? Join Wolfram developers in sharing expertise, best practices, and interesting case studies.

Submissions are encouraged in (but not limited to) the following areas:

- Educational technology
- Software development
- Social sciences
- System modeling and simulation
- Computational finance
- Machine learning
- Interactive media
- Cloud computing
- Data science
- Internet of Things or Connected Devices
- Visualization
- Signal and image processing
- High-performance computing

For more details and to submit your abstract, visit:
