**Subject:** Update

1. nothing from Denmark, no reason given
2. Chapman University in LA is interested in a relationship with me=and will pay me \$10,000 each for two five-day visits to their campus, first= in November, 2nd in the spring; we will look each other over <=iv>
3. i am pretty confident that i have now solved the prob=em of honour killings in both Islamic and Hindu settings, the first based =n repeated first cousin marriages, the second on endogamous sub-castes who=kill their own to maintain status vis-a-vis complementary endogamous sub-c=stes

most helpful to this work has been David Hai= at Harvard whom you met at a party you threw for me at Martin's way b=c in 2004, also two of his students, including a most attractive Dc Pavit=a from India who has been helpful with the Hindu case

=div>i am waiting to hear from Vienna whether they want me to give a TEDx t=lk on Honour Killings in October

you can tell the= are nervous, i thought at first it was fear of offending Hindus and Musli=s but was surprised to discover they had a more primitive problem—=hat The EVOLUTIONARY GENETICS of hon kills would sound like i was rational=sing it; i had to explain to them, no if you want to attack something =A0you best understand it first

4. i have go=ten involved in a case of lynching in North Carolina that occurred three y=ars ago, i will write you about it shortly; i will see Gordon mid-November= in part to discuss this case

all best
