**Subject:** RE: Block chain

Dear

Thanks for your prompt reply. I will spend more time in weekend to read more articles about block chain which is clearly a revolutionary innovation technology

What is the cryptocurrecny will be used in case you are not talking about bitcoin?

In addition to below and above inquires , kindly send your ( idea-proposal ) showing the block chain with the sovereign involvement and guarantee which will facilitate the establishment of such new technology

Such illustration will enable us to provide the picture clear for obtaining shariah opinion

Thanks

Regards

<http://blockgeeks.com/guides/what-is-blockchain-technology/> i will try to go down two paths . 1 to explain blockchain tech to you, i will follow by sending articles more in depth. please feel free to call with questions. 2 then the question of sovereign involvement could and would be very exciting. In order to be designated a currency a digital blockchain version would need sovereign guarantee. It would be revolutionary for your part of the world to innovate in

the financial sector. combined with a sharia compliant new currency. . with block chain , your contract execution is inherent to the code of the transaction so in keeping with sharia law , the contract would self execute making any unilateral changes impossible.

Dear Mr. Jeffrey

It was a pleasure talking to you yesterday. I got your email address from Sheikh Jabor Al Thani and he advised me to get in touch with you.

As agreed over the phone, kindly brief me with details about block chain pointing out the Structure, How it works ? being as a ledger of information / bitcoin's transaction, the Legislation and legal point of view, any agreements available, dealers rights and obligations ...etc

Such brief will help to understand the idea in order to obtain our shariah scholar opinion

Thanks and Best Regards,

Fawzi Siam
