**Subject:** A bit rocky in the moment sorry for the delayed reply

Here are my suggestion which should be implemented until the next financing round and yes I am interested. Let me know how you want to Proceed.

Bkiss

1. Strong advisory board appointed and in place:
2. An Israeli fee paying client – with a recurring contract in place
3. An overseas authority client – willing to act as international testimony
4. A private client – ideally a global player
5. On the IT side – the analytics system [and social features]
6. On support side – team to support all above
7. Patented technology
8. Selected roll out partners for each key geography to accelerate client capture/brand monopoly/fast execution round:
