There is no a foundation but a project of one.

My wife's dream is an extra curriculum mathematical program for children, say starting from 12year old that should include

1. a center in Paris with more or less regular classes;
2. systematic free of charge(!) summer schools/camps for children.

In both cases the lecturers must be university (graduate and under=graduate) students

My wife began making some inquiries, talking to relevant people but = interrupted everything last year because of the baby

On needs , besides a financial support to find an enthusiastic&nbs=; coordinator who will find out what are necessary steps must be tak=n

I expect help from

Center for Research and Interdisciplinarity (<http://cri-paris.org/>)

created and run by Francois Taddei (<http://cri-paris.org/team/francois-taddei/> <http://cri-paris.or=team/francois-taddei/>) --a bright biologist who developed a novel education=system/program in science, but who is also very open to mathematic=.

misha

PS I plan to go to NY something around 19th Sept. but am not certa=n if I will be free to do this.
