**Subject:** Peter Fenwick and Ray Lee

Hi Jeffrey,

Hope all is well. Did you set up a meeting with Peter Fenwick and Ray Lee? Also, my friend Alan Barnard is in NYC these few days. He's one of the main drivers behind this: <http://www.goldrattresearchlabs.com> More info on him here: <http://whoswho.co.za/alan-barnard-32988>. He's big into knowledge representation and encoding. Might perk your maths interest and collaborations you might have with Wolfram.

Let me know if you're like to meet him and I'll send an intro.

Hope all is going well. Hope to see you near the end of October. Just finished the book chapter that was overdue. Will send you a writeup on the Cuba event shortly.

gino
