**Subject:** Kawasaki Diesel Mule Quote

we have vetted 4 companies and attached is out best pricing which i will still try to further negotiate

1) Diesel machines that are coming off factory line are 2013 machines (newly made) - this will be the case until 2017 when they have a new engine Kawasaki is reluctant to change since they will have to adhere to new emissions regulations

Chris has requested diesel vs gas (please note gas models are 2015) Is Diesel ok?

2) Chris said he is ok with 2 units vs 3 units since he is losing Gardy Chris would like one 4 seater and one 2 seater

Are two units ok?

3) Cost of 4 seater with hard top installed and delivered to tropical is 12,905 please note cost of tropical shipping will be approximately \$200 per machine

Cost of 2 seater with lift bed and hard top installed and delivered to tropical is 12,890 please note cost of tropical shipping will be approximately 1200 per machine

time frame to receive on site is 4-5 weeks

please advise if ok to proceed with 2 Green Diesel units

Date: =/b>January 15, 2015 at 4:41:34 PM =ST

\$11,700.00 2013 Diesel 4X4 =ule in Scout Green

\$270.00 Prep (install Lift =ed)

\$809.95 Lift Bed

\$125.00 Hard Top

\$12,904.95 Quote each

I've been told by 3 =eople, so I'm pretty much convinced that we can't put a =ift bed on the Trans Diesel Mule, so I'll quote without one for =ou to decide.

\$12,500.00 2013 Diesel Trans =X4

\$390.00 Plastic Hard Top Black =nstalled

\$12,890.00 Quote Each

Let me know what you =hink?

All the best,

Todd
