Not sure how Ed is estimating \$15k for tubes.,
I received quote from Noverina \$29k in Vero who did the Ribtech=boat., I'll confirm this price tomorrow,

Hello Larry,

Glad to hear from you again. Tawnie is not here at the moment, and she usually handles these types of request, however, we'll be more than glad to help you. After consulting with management, the price would be estimated around \$29,000=00 USD. Tawnie will be in tomorrow and will follow-up with a formal quote.

Best regards,
