would you prefer the first meeting , you , me and lawrence=Krauss . so it becomes friendlier.

I suggest as a strategy , you express the desire to learn =here you might have misunderstood the science explanation. &nbs=; he is unaccustomed to humility.

you can then ask question re purpose, meaning. hope . and =sk for their mathematical , or scientific explanation. w= will stay away from time , infinities and quantum. at least for awh=le. I will show you the mathematicians magic trick of adding " a fudge factor" to fool the novice- &n=sp; how does he explain that if nothing is bigger than god or the infinite=. and 1 is greater than nothing. isnt it clear that one is greater t=an god. if you are a phyicist it appears you belie=e you are that " one " .

I am off to see chomsky at Harvard tomorw to =iscuss, the language of thoughts. he believes that the la=guage that we use first begins as an INTERNAL language. =nd only later gets expressed by hijacking some of the other biological&nbs=; mechanisms tongue. breath to create a " spoken language "

I am around all day if you are free. leave tomorrow until =he 22.
