Subject: Only 1 week left to register for webinars on Laterality in Health and Disease

Dear Jeffrey Epstein,

There is still time to register for a two-webinar series on Laterality in Health and Disease. The first 3-hour webinar **Laterality and Functional Organization of the Brain** will be streamed live on Wednesday, December 3 at 1:00 p.m. Eastern Time (12:00pm Central Time / 10:00am Pacific Time). The second webinar **Laterality and Brain Dysfunction** will be streamed live on Wednesday, December 10 at the same time. There are no special software requirements. If you have ever watched a YouTube video on your computer, you will be able to watch the webinars. You can also attend the webinars on your smartphone or tablet. The webinars are targeted to the mental health professionals concerned with brain health and brain disorders: psychologists, neuropsychologists, psychiatrists, neurologists, cognitive neuroscientists, and other clinicians and researchers.

3 Continuing Education Credits are being offered for each webinar.

The webinars will be presented by Dr. Elkhonon Goldberg, Ph.D., ABPP, a neuropsychologist, cognitive neuroscientist and author. His books *The Executive Brain*, *The Wisdom Paradox*, and *The New Executive Brain* have been translated into many languages and have met with international acclaim. He is a recipient of "Tempus Hominis" medal for international medical sciences education, and the Copernicus Prize for contributions to the interdisciplinary dialogue between neurosciences and neuropsychology.

The cost of each webinar is \$145; or \$250 for both. Click here to register <<https://lni-w2.eventbrite.com/>> . The webinars will be recorded and can be viewed after the live presentations. With your registration for the live webinars, you will also receive access to the webinar recordings.
