Darren's office got back to me. Th= foundation will have a d/b/a called Jeffrey Epstein VI Foundation. This wi=l allow some ein site capacity-- but not substantial since I don't hav= permission to use the 990 form or a modified version of it. I need this to=get onto the Foundation Center and its subsidiaries. They are the most prom=nent/visible online org for foundations. I will find out tomorrow again fro= the Foundation Center exactly what info they would show on the 990 and wha= they block out.

The NET site looks great. I have a=few edits/ comments. Attached are 4 docs:

* =div>my edits
* the AI Projects page that was left out.
* the About photo for Jeffrey.
* the=AI Homepage photo aligned left. This could be lightened up a bit.

let me know if the photo r=solutions are OK.

Thanks!
