Subject: Smart Sheet

Jeffrey,

FYI

I think you will be very pleased with the Smart Sheet software we =re testing currently for punch lists and project updates.

Daphne and I have t=sted the program and Karen, Anna and Myself got together with Daphne at the=office this week so we could all see it in action and try out the functiona=ity.

It is very identical to Microsoft Projects but with the big advantage of =unning equally well on Windows, MAC and IPhone/iPad. Overview can be printe= on one page and if you install the Smart Sheet app, you will always have a=fully updated punch list on your phone or iPad. As soon as we update, it au=omatically updates on all platforms. The overview screen looks like MS Proj=ct with colored progress bars as requested.

The system should be fully updated=with all current projects and punch list items for all properties added by =ext week.

Best,

John
