Subject: Re: CF

Rich established new format for Leon's cash flow today on sheet he sent you this afternoon and said he will work on a larger spread sheet. Since you were focused on cash flow today and had asked for cf across both Leon and the trusts I thought this would help. It is not easy to put all on one page. Happy to talk you through detail if you'd like. Boat/plane \$ came from Ric--reflects loan payment as well as typical expense run rate I believe.

Regarding timber: today was original deadline for bids but Molpus closing on their Fund IV was delayed until last week and they had their Investor Day for existing investors on the 14th and 15th. so mgmt was not as available as needed to work with interested parties until this week. Deadline is now Nov 7th. I've been told there are multiple interested parties but no indication on pricing yet.

Have a good weekend.
