Daph=e,

Attached are the revised site and floor plans for the Maintenance/Workshop =uilding. The changes are based upon the site visit held yesterday with Mr.=Epstein. He requested a storage addition to be placed at the northern end =f the building. We have placed that addition at the center of the northern=façade as the most strategic location for the addition. If we place i= further to the west, it will interfere with the access driveway leading t= the main residence. If

we place it further to the east, it will be too close to the edge of the abutment, in an area where the soil appears to be unstable. Upon approval of the plan, we will finish the drawings for the CZM permit application.
