Subject: Denali

1) Seat Vibration Noise for Jojo can be =urned off from Lane Departure Settings (see below)

2) Jojo and I met with =efano (owner of shop where Michael Angelo used to work)

a) Bench

=/span>-> he can make bench seat if you would like or can try to =rder directly from GMC if he can obtain part # and VIN that had one =factory built Stefano said GMC =ill not sell a bench for your VIN as factory know it came with bucket =eats —> i spoke =ith dealer again and they said that we could not order seat with them =s GMC will not allow our VIN to have bench =/span>dealer also said that if we order bench via other means then all =MC warranties will automatically be voided on car (that will happen on =irst visit to any dealer for repair or maintenance)

=/span>(Texas dealer was vague on purchase back of car but your estimate =as correct that it would be a 10-15k hit)

=/span>(Once you decide on which way you would like to go i can =egotiate at better deal locally to avoid Shipping of cars 2x (4,000 =ost)

=nbsp; (2016 Denali orders will begin in August / September and =hen take 6-8 weeks for delivery)

b) Radio - are you looking to replace =ith an Alpine (or other radio) or just upgrade speakers?

=/span>-> Stefano said that they can do either and if you put in =lpine you would not lose Bluetooth and other functionalities that came =ith car factory radio

c) Lights - Stefano will forward pictures for your =evew

d) =lack Carpet - Please confirm same material as existing carpet just in =lack

Please advise

Thank =ou

Vibrating =oise on seat is caused by your Lane Departure Settings

Please review pages 14-15 of attached =o turn off
