Subject: 71st Scaffold

Merwin says that we have Gennie as it needs a flat surface to work and cannot be brought up the stairs Ion says that Gennie lift is a bit scary for him at over 30'

I was able to negotiate 23,366.75 bid to 22,000 and I am still trying for more They can install on Tuesday Dec 3rd

Other bid of 26,995 would not budge on cost

Please advise if ok to proceed with 22k bid

Thank you

hi rich,
i got the wire.
thank you.

ps. merwin told me that you said to use a lift to do the ceiling molding in the hallway. sorry, but i cannot work on the lift..its scary, it is way too high to use that. its over 30ft high the ceiling.

Rich,

This is exactly the one we have here at =he house, and this will not work. this needs a flat surface to work and =t's way too heavy to bring up the stairs.
