Please advise if OK to book tickets for Kevin and Philippe to go to the island this Wed., stay over in hotel and fly back on Thursday...

Hi [REDACTED], Jeffrey,

Thank you, for the information regarding the ocean strength. I'm about to achieve my SKETCH FEE PROPOSAL based on a fix rate, but I will need to come back on the island at least for one day to hike around and take load of pictures for my 3D. I have checked with Tradwings and there is a direct flight on Wednesday morning, but there will be an over night and the return has to be through Puerto Rico the day after as the Tradwings flight leave St Thomas just after it lands at 9 AM and come back only the next Wednesday a week after. However it's a good option because it gives me all day to work efficiently. I told Philippe the architect about this direct fly and I think he will be interested too. Please let me know whether it could be possible to come this week?

Regards,

Kevin.
