Subject:	Wolfram Community is turning 10,000 members and features exciting updates

Community is about to turn 10,000! Members, not years. We launched Wolfram Community in July of 2013. After just two short years, it has grown to a hairsbreadth away from 10,000 participants. Join now and help us reach this milestone!
http://community.wolfram.com

We'll award prizes to new members with the most creative profiles who join until the day we hit 10,000. Five people with the most creative profiles will each win a one-year subscription to
Wolfram|Alpha Pro and one million Wolfram Cloud Credits. An
additional grand prize will go to one of them: a personally inscribed copy of Stephen Wolfram's upcoming book, An Elementary Introduction to the Wolfram Language.

In your Wolfram Community profiles, tell us about what you've done and what you dream of doing with Wolfram technologies. The best dreams win! Full details are on the blog "Wolfram Community Is Turning 10,000!"
http://blog.wolfram.com/2015/10/20/wolfram-community-is-turning-10000

If you already are a member, you may know that we have just updated the site, making numerous improvements. If you have not yet joined, now is a great time to come aboard. Wolfram Community offers outstanding features for collaboration and communication.
Here are the most important recent developments to be aware of:

- MathGroup and all other separate Wolfram forums have been folded into Wolfram Community.
- Flexible email notifications will help you to stay up-to-date with the information you need about Wolfram Community.
- A new Jobs board group empowers business communications, discussions of projects and job positions, and collaboration.
- A new Staff Picks group highlights the best posts.
- There are now more groups to accommodate a wider range of interests.
- A powerful editor helps quick, effortless posting of rich, beautiful content.
- Exchange files of many types using post attachments.
- Mathematical notation with LaTeX and MathML enables clear scientific communications.
- New syntax highlighting will make it easier to write in the Wolfram Language.
- Advanced filtering of posts helps in finding useful content.
- A professional member directory will help you make connections and promote your work.

Wolfram Community is buzzing with energy. Please join our conversations and spread the word! You might be surprised at how much you can discover, how many new people you can meet, and how fun and useful communication with like-minded people can be.
Great minds think alike!

Sincerely,

Vitaliy Kaurov, PhD
