Thanks for taking the time to meet while you were in=Cambridge

I hope the Update I provided was helpful / Will plan=to follow up further when I see you next

On another note: We did not get a chance to discuss =our idea of the Congresswoman working with the current Administration (esp=cially given the challenges, and frankly the unavoidable and impending cri=is that is coming down there)

I did speak briefly with her about the topic and I h=ve been advising her around some of the more immediate topics including th= leading up to the Inauguration but would like to discuss it with you furt=er so that I can continue to talk to her more strategically

Please let me know if, when, you have a moment to ca=ch up on the topic

McGee
