Here are the numbers:

AS App = \$22,605

Apple Control interface = \$51,335

Shades all Up = \$30,475

= The Shades control at the VIP seat req=ires a new switch panel which will need plating and installation from Eric♦=80♦s guys.

We will also have \$12K roughly in travel if we do eit=er the Wifi control and or the Shades. Probably half of that for the AS app-if done by itself
