Attached is email from new accountants
It appears that their reply did not even address your question which I clearly communicated to them

Should I run this exact pattern by Allan Dlugash?

Rich,

I've attached a short article for you to review. If you look at page 7, it discusses a sale between a grantor & a grantor trust as being taxable for NYS sales tax purposes. We're still looking to find any sales tax issues as it relates to property substitution.
