Dear Jeffrey,

Welcome to the future of human health.

I'm a colleague from Health Nucleus, following up on your inquiry. Thank you for being proactive about your personal health by requesting more information about Health Nucleus. Let's schedule some time to talk in more detail. We can find out if you are a candidate for the Health Nucleus experience, and, if so, we can book an appointment for your one-day, immersive genetic testing and health screening

<<http://go.humanlongevity.com/e/153921/nowledge/74q8d/263439347>> .

Within 2 weeks of your appointment, you'll receive results about any details that require immediate attention. About 8 weeks after your screening, you'll receive a full report of your complete health profile

<<http://go.humanlongevity.com/e/153921/science/74q8g/263439347>> . That's when it's time to develop an in-depth action plan for you and your physician, to begin working toward a healthier you right away.</td>

Please select a 30-minute phone consultation from here

<<http://go.humanlongevity.com/e/153921/hninterest/74q8j/263439347>> or call me at [REDACTED]

I look forward to getting you started on this exciting new journey.

Sincerely,

Anthony O'Connell
