Even though he spends all of his evenings with me (except when i travel) and there is zero evidence of other women anywhere, plus he is very =igh integrity there are some things that make me worry

He's on SMS =text) quite a lot. I know lots of men and even women he works with but fee=s weird for him to check so frequently and at night etc

Hes started=to care more about how he looks, laser hair removal etc.

He is rea=ly into yoga and all the female instructors flirt constantly with him. Usu=llly he doesn't notice but he's started to point out more people in class e=c

Although he's always been a follower of culture and current event= he is constantly googling himself and reading all the stupid tabloid site=.

I have no idea about money BC we have always kept totally separat= accounts but his habits haven't really changed. He buys more shoes and yo=a clothes

I have never asked him any questions about anything he do=s. He is very independent as am I.

Not sure what to think? Worried =hat talking about anything will just annoy him (i never ever have talked a=out anything since I know that's what drives him nuts about his mom)

My options are really three.

1 Do nothing dont worry and try my b=st to be me and love him no matter what he does and just ignore everything=BR>

2 Ask him in a non threatening way just very frankly if he wants to=end the relationship or there is someone else he'd rather be with

3=force a conversation about the future that will make him angry but at leas= give me a sense of whether or not I should try to fix whatever I can or m=ve on and be miserable without him _____
