I will send it to WAPA for approval tomorrow. Once WAPA gives the blessing I will send it to you for permission to request quotes.

Good evening Mr. Kahn,

Thank you again for selecting HKT Energy Group for this project and I would like to reiterate my commitment to making this a first rate project. I am in receipt of the check signaling the formal commencement of the project.

I have already started on the project and am close to completing the cable specs but I need 1 important piece of information to ensure the cable is sized adequately to accommodate future growth.

Do you have load projections or the future plans of both islands?

Additionally, I understand that Ms. Amy Dempsey of Bio Impact is providing environmental services and assisting with acquiring permits for the project. With your permission, I will be in contact with her to obtain final lengths and routes of the cable and landing points.

I look forward to your response.

Best,

HH
