Jeffrey,

Gary is requesting to show the Boeing to the Diamond exchange person this weekend in London,. Gary would not share his name at this point, I told him you will require name before granting permission to view. Gary told informed me the buyer is from UK origin and lives in South Africa, owns a Challenger 604 currently.

Should I allow Gary to make arrangements for the Viewing if you still have interest in this deal?

Gary is requesting the following information from me:

- Is there an engine program available?. NO on=20 condition
- Can I get a CAMP report? YES
- What is the Range? 7+45min IFR reserves
- What is the D.O.C.? burns 1250 gallons per hour,
- Can we arrange a showing this weekend in London? (pls advise)

thank you,  
Larry
