The MX122 replaces the MX121 model and adds multiple upgrades, including 4K video support with high dynamic range (HDR) passthrough, Bluetooth, more streaming services, Dolby Atmos object-based surround, and upgradability to DTS:X object-based surround and to Auro-3D surround

Hey.

We ran into some hiccups getting the 4K Apple TV working in NYC (the receiver doesn't do 4K pass through and the cables have to be upgraded).

How is your movie room's Apple TV connected? </=iv>
Is there a receiver between the Apple TV & projector? If so what's the make & model?
How new are your HDMI cables?
