Ref Water

Therefore the post water treatment system is Not working properly Yes the calcium carbonate will make you water hard if the mix is wrong<=div> But once calibrated correctly , which is=part of Tuesday service you will have soft water again AKL @ 40 ppm Taking note the system 300,000 gallons will need to be flushed.

Program is not working fine

The HP Pump started up with out Booster pump when I was there last If=this was to happen again and know one caught, you would have no water at all= I would strongly advise we do this&nbs=; Considering a new HP pump is going to=be installed, please advise ?

Sur=e Protection

Can we a get photo, i= may not be adequate, who installed it, is there a invoice .

Which projects do we hand them?

Who is the contact we forward info to?

I return tonight at 5 local. . issue&=nbsp; today. am told 1 . that as i said the wa=er is hard and unacceptable IT IS NOT OK. and th system i= not complete. a water softener was NEVER installed. &nbs=; the calcium carbonate makes it hard. 2. I m told m= danny and confirmed by smiley that the program is working fine??!&nb=p; 3, Im not sure what pumps were ordered and who advised=. 4 re the surge protection black danny said t=ey are already on each panel? ? so no need to add. . 5 la=dscapers need to be fired and rehired. 6 lets get bids fr=m blue water construction for future projects. .7. and second b=ds from compass marine to do our boats
