Subject: update

Jeffrey,

I still have not received landing permission from Abidjan,. I just spoke to David ToeKoff who is in contact with General Ouegnin who runs the airport. Mr ToeKoff told me verbally to land and he'll make arrangements with the airport for our arrival. Mr ToeKoff said he met with the President today, and informed me that the President will be in Monrovia for an inauguration and will return Monday night to Abidjan, you probably are aware of this already. Plus Hilary Clinton arrives Monday night into Abidjan according to Mr, Toekoff, so security will be high.

David Toekoff told me to park our aircraft at the Air Force Base instead of Civilian side of airport and he'll have his crew and 20 handlers meet us on arrival, has there been arrangements made for your 20 transportation?

Are you comfortable with landing without official landing permit number? and parking on military side?

just received this from Nina:

Hello Larry.

There won't be any problems. You'll have the permits by tomorrow.

Still no news? Please give me your phone number I'll call you now. Going to another general so he would do it soon if it's not done yet.

Nina

please advise

thank you,

Larry
