Jeffrey

Just playing with some 550 interior ideas.,

You mentioned Home Thearter in crew rest area in the other G550.,

Eric Did a Home Thearter in Tyler Perry'a GV,, Mid cabin Divan and installed a Large screen TV across from the divan,, Instead of second club seating your planning.

maybe keep the L/H mid cabin 4 place divan and remove the R/H divan and ins=all a 50" TV, in a small Credenza.

Keeping it simple:

-The source of movies could be your lap top via HDMI cable.

-for audio, we could use Bose Noise Cancel Headset for listening to Movies, s=nce Voice dialogue is challenging in any aircraft.,

Still gives you 12 pax seating

Just a thought,, see attached photos.

Thx,

Larry
