In today's rapidly evolving bu=iness landscape, the ability to extract key information before your compet=tors do is a crucial advantage. As I've written elsewhere, search =iteracy is not enough to succeed in this world. You need network literacy =oo. And that means developing your aptitude for reading how information flo=s through different networks of alliance and communities of interest. It m=ans learning to quickly identify sources of expertise, and knowing the key=connectors who can put you in touch with the right people in domains outsi=e your own primary field of knowledge.
