Can I call you when my roommates leave? They're all in the room right now..... I know I did a bit lower than average but the fact that I'm working so hard and getting such terrible grades is upsetting me and confusing me. I assume I'm working harder than most people but still getting below the average grade

Feeling really terrible about my school work these days. I got a 75 on my first biology midterm and a 70 on my first social psychology midterm. Studied SO hard for both. Both were very tough exams with averages in the 70s but I still am not feeling good about myself. How do you think I should react to this? Obviously I'm devastated but am just confused because I have been working so hard all semester. (Don't tell mommy!!!!)
